This home allows flexibility for any lifestyle... offering four bedrooms and 3 1/2 bathroom is just the beginning! The main level is well-designed with a living room/ library, dining room and master suite. The kitchen in the Raleigh II is the heart of the home, with an included gourmet layout, expansive island with seating area and breakfast nook. Generously sized bedrooms are featured on the second floor and there is a luxury option for a second Master Suite and a Bonus Room as well. With available luxury upgrades of the morning room, sun room and extended great room, there is plenty of room for expansion. Basement finishing options allow for even more living space with an optional rec room, den, hobby room and an additional full bath. Elevation Drawing may show Optional Features.
